

Special solution

30 YEARS OF
PURE PASSION

DG 103

2- OR 3-COMPONENT UNIT
FOR DOSING, MIXING AND CASTING

DG 103 units are especially suitable for industrial applications in **manual, semi- and fully automatic production**. Differing drive and dosing units facilitate the creation of customised solutions for the strictest demands. An efficient SPS control system, as well as optional **flow control and recirculation** simplify integration into fully automated production lines.

OPTIONAL FEATURES

- Twin/triple pump drive
- Flow control
- Colour and additive dosing
- Automatic rinsing

Automatic mixing head handling

Dynamic mixing head

Twin-drive pump

TECHNICAL DATA

| | |
|----------------|-------------------|
| Output | up to 15 kg / min |
| Tank sizes | 16 - 60 l |
| Temperature | up to 90°C |
| Compressed air | 6 bar |
