30 YEARS OF PURE PASSION

DG 107

2-COMPONENT UNIT FOR DOSING, MIXING AND CASTING

The **DG 107 unit** is a **tabletop model** for the casting and spraying of cold processed materials. Its flexible design allows individual, customised configurations and a small footprint. Moreover, numerous optional features and simple operation make the DG 107 the ideal solution for **small and medium-sized series**.

OPTIONAL FEATURES

- Agitator
- Electrical heating mats
- Static, roto-static or dynamic mixing head
- Solvent-free system

Static mixing head

Roto-static mixing head

Electrical heating mats

TECHNICAL DATA

Output	up to 5 kg / min
Tank sizes	2 - 60 l
Temperature	Room temperature
Compressed air	6 bar
