DG 108

2-COMPONENT UNIT FOR DOSING, MIXING AND CASTING

The **DG 108** is a **compact, mobile unit** for the casting and spraying of cold and hot processed materials. Freely programmable controls with up to ten casting time settings and **pot life monitoring with an acoustic and optical alarm** permit simple and safe operation. The variable mixing ratio, which can be adjusted via cog wheels, and output of 0,002 to 5 kg per minute make the DG 108 a **highly versatile production unit**.

OPTIONAL FEATURES

- Agitator, automatic rinsing
- Electrical heating mats
- Static, roto-static or dynamic mixing head
- Solvent-free system

Dynamic mixing head

Electrical heating mats

Pump drive with cog wheels

TECHNICAL DATA

Output	up to 5 kg / min
Tank sizes	16 - 60 l
Temperature	up to 60°C
Compressed air	6 bar
