DG 120 SERIES

2- OR 3-COMPONENT UNITS
FOR DOSING, MIXING AND CASTING

The **DG 120 series** is especially suitable for **laboratory purposes and small series production** and all 2- or 3-component, reactive systems such as TDI, MDI or Mboca. Fully heated component lines can attain temperatures of **up to 130°C** and the supplementary module for a third component can be quickly and easily attached to the basic unit. Optional colour and additive dosing, as well as a **vacuum device** make the DG 120 especially flexible.

OPTIONAL FEATURES

- Colour and additive dosing
- Vacuum device
- Service modem
- Volumetric gear flow metre
- Automatic refilling

Mixing head, pressure regulation valve

Hot box with gear flow metre

Water rinsing

TECHNICAL DATA

Output	up to 6 kg / min
Tank sizes	10 -34 l
Temperature	up to 130°C
Compressed air	6 bar
