

30 YEARS OF
PURE PASSION

DG 150 SERIES

2- OR 3-COMPONENT UNITS
FOR DOSING, MIXING AND CASTING

The **DG 150 series** consists of compact units for all cold or hot cast, reactive 2- or 3-component systems. These offer standardised configurations with **variable outputs and fully automatic SPS controls**. The use of the latest technologies and top quality components creates cost- and energy-efficient production and in addition the DG 150 series possesses **impressive intuitive operation** and control.

OPTIONAL FEATURES

- Colour and additive dosing
- Vacuum device
- Service modem
- Volumetric gear flow metre
- Automatic refilling

Colour dosing

Siemens S7 controls

TECHNICAL DATA	
Output	6, 12 or 18 kg / min
Tank sizes	60 - 300 l
Temperature	up to 130°C
Compressed air	6 - 7 bar

Volumetric gear flow metre
