

Design variant

30 YEARS OF
PURE PASSION

DG 200 SERIES

2- OR 3-COMPONENT UNITS
FOR DOSING, MIXING AND CASTING

OPTIONAL FEATURES

- Colour and additive dosing
- Coriolis mass flow control
- Thin layer degasser
- Service modem
- Process visualisation

DG 200 series units with up to six component lines offer tailor-made solutions that meet every requirement. Cooled systems are available, as well as tank sizes of up to 1,500l and **outputs of as much as 100 kg/min**. The freely programmable SPS control system with optional **process visualisation and data logging** guarantees maximum product quality and simultaneous process reliability. Dosing pumps are also available for filled and abrasive systems.

Multi-component mixing head

Pump with magnetic coupling

Double pump version

TECHNICAL DATA

Output	up to 100 kg / min
Tank sizes	34 - 1.500 l
Temperature	up to 150°C
Compressed air	6 - 7 bar
